Early, offset obstacle | Coordinate | lower-median training seed per family
XY projection
y (m)
x (m)
XZ projection
z (m)
x (m)
3-D point reference
x (m)
y (m)
Initial warm start
Paired modes: seed 207, T=3.19 s
Modeled obstacle envelope + clearance
Coupled Hermite/Bézier decoders describe the same curves. Endpoint p/v/a are fixed. Projected overlap does not imply 3-D collision.
